PROFESSIONAL SUMMARY

Python and backend developer with an MTech in Analytical Chemistry, building REST APIs with Flask, SQLAlchemy and PostgreSQL, data tools with Pandas, and desktop applications with Tkinter. Backend Developer on SiteLedger, a multi-team fuel and asset operations platform built through the NCDMB Digitalization Initiative, and solo builder of Cliqo, a web and mobile service marketplace. CAPM-certified, trained in safety management, and experienced in explaining technical ideas clearly after six years in the classroom.

TECHNICAL SKILLS

Backend: Python, Flask, SQLAlchemy, REST APIs, PostgreSQL, SQL, authentication & role-based access

Data & Automation: Pandas, Matplotlib, Selenium, BeautifulSoup

Frontend & Desktop: HTML, CSS, Bootstrap, Jinja, Tkinter

Tools & Delivery: Git & GitHub, Vercel, Neon (PostgreSQL), Microsoft Office, Slack, Notion, ClickUp

PROJECTS

Cliqo — Web & Mobile Service Marketplace

2026

Solo project · designed and built end to end

- Built a web and mobile marketplace that helps customers find trusted professionals for their service needs.
- Implemented user registration and secure sign-in across the web and mobile apps.

SiteLedger — Fuel & Asset Operations Platform

Jul – Sep 2026

Backend Developer · NDI capstone (Full Stack, Data, Cloud, ML teams) · siteledgermanagement.com

- Built Flask blueprints, SQLAlchemy models and REST APIs for fuel deliveries, tank dips, suppliers and site assets.
- Implemented authentication, role-based access control and per-site data scoping.
- Aligned backend models with the Data team's PostgreSQL schema and exposed variance/reconciliation results and dashboard endpoints.
- Delivered the maintenance & compliance module: schedules, checklists, incident logging and automated reminder notifications.
- Migrated data from SQLite to Neon PostgreSQL and deployed the API on Vercel under a custom subdomain.

Oil & Gas Compliance Management Platform

Python desktop application · Tkinter, Pandas, Selenium, BeautifulSoup, Matplotlib

- Built a desktop tool for equipment management, maintenance scheduling, vendor price comparison and compliance tracking.
- Automated retrieval of regulatory news and weather advisories; added an analytics dashboard with Matplotlib charts.
- Packaged the application as a standalone Windows executable for distribution.

Personal Portfolio Website

2026

Flask, Jinja, Bootstrap · github.com/ibnzachariya

- Data-driven portfolio with project pages generated from JSON and a validated, spam-protected contact form.

EXPERIENCE

Trainee — NCDMB Digitalization Initiative (NDI)

2026

- Software development training in Python, Flask and PostgreSQL; Backend Developer on the SiteLedger capstone team.

Teacher — L.G.E.A Demonstration College

2019 – 2025

- Planned and delivered lessons, assessed student progress, and explained complex topics in simple terms.

Corps Member (NYSC) — Nigerian Institute for Trypanosomiasis Research, Kaduna

Industrial Training (SIWES) — NAFDAC Laboratory, Kaduna

2017

EDUCATION

MTech, Analytical Chemistry — Federal University of Technology, Minna

2025

CERTIFICATIONS

International Executive Certificate in Safety Management (IECSM) — La Plage Meta Verse	2026
Certified Associate in Project Management (CAPM®) — Project Management Institute	
Graphic Design — V.S.L Concepts Digital Marketing Agency	2021
MPCBP Certificate — Chartered Institute of Loan & Risk Management of Nigeria (CILRM)	2019

LEADERSHIP & ADDITIONAL

- Welfare Officer, Kogi State Science Students Association (KOSSA), BUK Chapter
- Member, Junior Chamber International (JCI) Nigeria
- Languages: English, Ebirá
